Nice paint job

10/10. Okay, I'll say this, I like tech things... and this is the only way I've found to get a circuit pattern on the truck. And the fact you can make the color look chameleon like, WOW!... This is a must buy for any ETS-2 players that want an interesting and unique rig style.

Note though: I prefer to drive in the cab, so I rarely see the outside of my truck/rig. As a result, I'll just warn that it may not be cost effective to have this DLC unless you plan on playing ETS-2 a lot.. I seem to be the only guy who actually paid for this.

It was worth every cent though.. Het werkt niet op mijn computer en ik wil het geld retourneren

. not so nice. For some reason I decided to buy this DLC, even though it is free on WOT, just to support SCS. This DLC is definitely worth \$1.99 USD
